7-14d ago vs 7d ago: 3 264: 3 171 3% decrease

WC 22 511 : 24 910 11% increase

**General points:**

1. There is small decrease in the active/100 000.

George and Knysna show a very welcome decrease.

Mossel Bay has the highest rate, but very small increase.

Main areas of concern: Hessequa (40-45 new cases per day) and Oudtshoorn.

2. Distribution is wide-spread.

3. George Hospital under severe pressure. Covid ward full and High Care 96% full.

All district hospitals very busy, especially Oudtshoorn Hospital, but manageable presently.

4. Private hospitals: slight easing in Mossel Bay and George; Oudtshoorn very busy.

5. Unfortunately, still a high number of deaths.
