Vaccine Program

J&J Program (total): 59 039

Pfizer first dose: 151 768

Total people with at least one dose: 210 807

Total people with second dose Pfizer: 118 608

Total % of population > 50yrs fully vaccinated: 64%

Total % of population 18-49 yrs partially vaccinated: 39%

Way forward for vaccinations:

1. There has been a very poor response to weekend vaccinations. Only Harry Comay continued with alternative weekend vaccinations.
2. Generally, there is a decreased demand for vaccinations and some of the vaccination sites remain under-utilized. Sub-Districts are in process to re-strategize, maybe to integrate vaccinations within the PHC platform.
3. We have sufficient Pfizer and one-dose J&J vaccines for all our needs. Delivery for Pfizer was on the 10th November 2021. We have not received any complaints in the past 2 months regarding availability of vaccines.
4. The second **VOOMA** weekend will be on 13 and 14 November 2021. The following sites will be open:

George – Thembaletu CDC: 13 and 14 November 2021

Hessequa – Heidelberg Duiwehoks Hall, Alberitna Theronville Hall: 13 November 2021
