### Sales of Goods and Rendering of Services:

The income for Sales of Goods and Rendering of Services reported for the month ended 30 November 2023 amounts to R786,000 (YTDA: R2,782,000 and YTDB: R11,158,000). The shortfall in YTDA vs YTDB is due to a lower occupancy rate than anticipated on the revenue from camping fees and fire services. It is expected that the monthly camping fees will increase during December 2023 and January 2024 due to the holiday season. The possibility of increases in fire services during the high fire season (December – March) are also likely, as these are the typical high fire months.

This ratio indicates how quick (in days) the municipality is able to receive payment from bills sent out to the public on a monthly basis.

The main reason for this relates to the complexities and legal challenges associcated with billing and payment of fire fighting services in the district.

GRDM sends out letters of demand and, as applicable, hands over non-paying debtors to the legal department. Proving however where a fire originated from remains a challenge and a protracted legal process.

GRDM installed a new incident management system in the Disaster Management section, which will greatly strengthen GRDM's ability to prove fire origination, which is expected to result in an improvement regarding receiving payment from fire fighting services debtors.

Long outstanding debtors which mainly consists of old sundry debt and fire accounts, remains a concern for the municipality and management will continue to report in terms of progress made.

Most of the firefighting accounts are disputed with regards to the origin of the fire and who is responsible for the payment of the account. The fire section has implemented an electronic system which will assist in the future with disputes.

The municipality is required to submit debtors age analysis data strings monthly.

Currently the debtor section initiated debt collection processes and will report quarterly to the financial services committee on the debt collection process.

Remuneration related expenditure for the month ended 30 November 2023 amounted to R35,008,000.

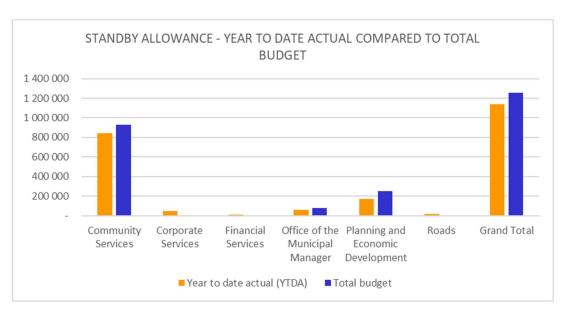

The municipality closely monitors overtime and standby allowances to ensure that it is in line with the prior year comparative month and the budgeted amount. This helps keep track of whether the day-to-day functions are executed within normal working hours and will also act as a monitoring tool as to whether the current staff composition is insufficient; of which long periods of excessive overtime/ standby allowance may be an indication that it might be the case. The municipality reports to council monthly on the expenditure on staff benefits as required by the MFMA Section 66.
