Comment					

This ratio indicates how quick (in days) the municipality is able to receive payment from bills sent out to the public on a monthly basis.

The main reason for this relates to the complexities and legal challenges associcated with billing and payment of fire fighting services in the district.

GRDM sends out letters of demand and, as applicable, hands over non-paying debtors to the legal department. Proving however where a fire originated from remains a challenge and a protracted legal process.

GRDM installed a new incident management system in the Disaster Management section, which will greatly strengthen GRDM's ability to prove fire origination, which is expected to result in an improvement regarding receiving payment from fire fighting services debtors.

Comment			

The purpose of this ratio is to measure GRDM's ability to repay debt. For purposes of the loan agreement with Standard Bank, the Debt to Revenue Ratio must be maintained at a level that is less than or equal to 50% (fifty percent) of revenue.

The municipality has sufficient revenue to cover its debt obligations, as total debt only constitues 4,88% of total revenue, which is well within the norm of 50% or less as per the loan agreement.

Interest Paid to Total Cost Ratio:	(Interest paid / Total expenditure) x 100

Interest paid	603 054	
Total expenditure	266 585 635

Comment		

The purpose of this ratio is to measure GRDM's interest expense compared to all expenses incurred. For purposes of the loan agreement with Standard Bank, the Interest paid to total costs must be maintained at a level that is less than or equal to 7.5% (seven-point five percent) of total expenditure.

The interest expense only makes up 0,23% of all expenditure incurred, therefore it is not a significant expenditure item for GRDM and is well within the norm of 7,5% or less as per the loan agreement.

Long outstanding debtors which mainly consists of old sundry debt and fire accounts, remains a concern for the municipality and management will continue to report in terms of progress made.

Most of the firefighting accounts are disputed with regards to the origin of the fire and who is responsible for the payment of the account. The fire section has implemented an electronic system which will assist in the future with disputes.

The municipality is required to submit debtors age analysis data strings monthly.

Currently, the debtor section initiated debt collection processes and will report quarterly to the financial services committee on the debt collection process.

Remuneration related expenditure for the month ended 31 January 2024 amounted to R23,786,906.

The municipality closely monitors overtime and standby allowances to ensure that it is in line with the prior year comparative month and the budgeted amount. This helps keep track of whether the day-to-day functions are executed within normal working hours and will also act as a monitoring tool as to whether the current staff composition is insufficient; of which long periods of excessive overtime/ standby allowance may be an indication that it might be the case. The municipality reports to council monthly on the expenditure on staff benefits as required by the MFMA Section 66.
