**GARDEN ROUTE DISTRICT MUNICIPALITY
TERMS OF REFERENCE
REQUEST FOR EXPRESSION OF INTEREST TO INTERESTED PRIVATE SECTOR DEVELOPERS/ LANDOWNERS FOR
AFFORDABLE HOUSING PROJECTS FOR A PERIOD OF THREE YEARS (FRAMEWORK AGREEMENT)**

1. Background

This call is targeting interested private property developers and owners of land and buildings to formally respond and register their interest in being part of the GRDM data of development partners. The intent is to forge formal public-private partnership arrangements with entities and/or individuals that satisfy measurement criteria for selection into a framework arrangement reviewable over a period of three years for the long-term development of the following affordable housing opportunities:

- **First Home Finance (FHF) - Finance Linked Individual Subsidy Projects (FLISP)**
- **Upper GAP Individual Home Ownership Schemes**
- **Inclusionary Housing Schemes**
- **Social Rental Housing and Student Accommodation**

These should be pursued in well-located areas of the District and its 7 B Municipalities in Restructuring Zones (RZs) and Priority Human Settlements and Housing Development Areas (PHSHDAs).

The primary intent of the GRDM is to establish a database of such property developers which meet set criteria for forging such partnership arrangements. These Affordable Typology Schemes target primarily South African families and households earning combined monthly household incomes sitting between R1 850 – R22 000. This further extends to Upper GAP Individual Home Ownership Schemes targeted for those earning above R22 000 threshold. The related partnership proposals should demonstrate their respective willingness to partner with the GRDM through use of their own land and building/property assets to be targeted for affordable housing in well-located areas of the district.

This program is informed and guided by the GRDM's Integrated Human Settlements Strategic Plan (IHSSP)

2.Executive Summary

As part of the 30-year Affordable Housing delivery commitment of the GRDM which is outlined comprehensively in its approved IHSSP, it has become necessary that the institutional capacity to successfully undertake this process be linked to sustainable partnership arrangements with interested external private development entities. The GRDM has committed itself to government legislation, policies and programmes which encourage substantive delivery capacity for ensuring the development and long-term management of such affordable housing typologies.

To enable this, it has become necessary that this be undertaken based on partnership arrangements with willing private sector development entities and/or individual property owners. The GRDM as the district and its 7 B Municipalities which constitute it (i.e., Oudtshoorn, George, Knysna, Bitou, Hessequa, Kannaland, and Mossel Bay), are expected to formulate and foster a supportive and enabling environment that allows for envisaged sustainable delivery of affordable housing programs and projects in well-located areas which complement long term socio-economic integration.

Given the uniqueness and inventive elements of such an approach, which has already been pursued in specific Cities and towns of SA as well as various international housing contexts as best practice, it has therefore become necessary that the GRDM pursue a similar model and approach. This also resonates with its recently approved IHSSP linked also to a Human Settlements Sector Plan (HSSP) which details the rationale and long-term development of such opportunities over a 30-year horizon.

It is intended when related pre-planning and packaging has been done on identified land and properties to be sourced from both Municipal, State, and private sector sources, to scale up the delivery based on 1000 units per annum.

This Request for Development Partnerships based on formal expression of interest serves therefore to outline the way such developers and landowners will be evaluated and if successful be placed on the GRDMs database of interested developers and land/property owners. This process is being undertaken in line with the GRDM' Supply Chain Management (SCM) Guidelines and corporate processes.

3.The Rationale and Opportunity Explained.

Through these above outlined housing typologies which constitute the Municipality's commitment to affordable housing characterised by affordable rental and individual ownership schemes, the GRDM therefore, intends to provide well-located housing opportunities for low and moderate-income households. These programmes are broadly intended to be implemented within the framework of the following legislation and programmes:

- **National Housing Code, Rental Housing Act,**
- **Social Housing Act, 16 of 2008 read together with the Social Housing Regulatory Framework of the Social Housing Regulatory Authority (SHRA),**
- **Municipal Finance Management Act (MFMA), No. 56 of 2003 and the Preferential Procurement Policy Framework Act, No. 5 of 2000 and Regulations,**
- **Public Finance Management Act (PFMA)**
- **Spatial Planning and Land Use Management Act (SPLUMA) No.16 of 2013 and regulations.**

This also includes the recent Inclusionary Housing Policy Framework as approved by the WC Government (WCG).

The Municipality intends to commence with the implementation of Affordable housing opportunities during the 2024/25 Financial Year which commenced from July 2024 and onwards based on a 30-year long-term horizon. This will be within a view to maximise the realisation of the above-mentioned typologies in well-located areas. This will be undertaken with the strategic objective of maximizing related value and needs of the defined and targeted affordable housing opportunities and promote spatial justice as well as long-term socio-economic integration of affected households into the urban environment context.

The legacy of apartheid is primarily characterised by historical spatial planning settlement distortions. This is broadly evident in the District and its B Municipalities' current urban form. Poorer communities live in dispersed settlements, away from adequate socio-economic opportunities, infrastructure, and facilities/amenities. This has the consequence of low to affordable households having their transactional

abilities compromised. This results in lack of mobility in well-located areas and at the same limits long-term socio-economic integration.

This is best illustrated by their inability to satisfy and sustain their households needs and characterised by lack of affordability and linked expenditure patterns consisting of economic depravity, joblessness, socio-economic inequity, inherent limited or low monthly income earning base, etc. This has mostly resulted in continuous poverty and inability to cover necessities like food and sustenance, travelling expenses to get to work and other public amenities. This further entrenches social divisions in urban societies and inhibits the economic growth potential of the Municipality.

At the heart of this dysfunctional urban reality and paralysis, is the issue of access to decent and affordable housing in the inner city or town areas of the district targeted for low to moderate income earning households. In the main, this has reduced such households to commercial victimization in the form of lack of access to credit, mortgage finance, endless cycles of poverty and debt entrapment. This vicious circle has resulted in limited opportunities for the afore-mentioned affordable housing products hence the need for innovation and bold thinking to turn around the situation for the betterment of their lives through adequate housing accessibility.

A further positive development to incentivise participation in the affordable housing market has been government's recent review of applicable monthly income threshold/categories for both social rental and individual ownership opportunities. This has been done to align and be more responsive to inflationary development and operational effects realities. These will now target households earning monthly incomes that sit on the following combined thresholds, namely:

- **R1 850 to R5 500 combined monthly household income (Primary target market for social housing)**
- **Households earning above R5 501 to R22 000 combined monthly household income (defined as the secondary social housing market).**
- **Upper GAP Individual Ownership Schemes – Combined Monthly above R 22 000.**

The R3500-22000 threshold per month is already applicable for FLISP/GAP individual homeownership beneficiaries based on a State Guarantee towards mortgage finance packages on a sliding scale depending on the specific income earnings of respective participating beneficiaries.

It is therefore hoped to enhance such proposed delivery scale through this development partnership framework linked to cohesive and sustainable partnership arrangements with private sector property developers as proposed in this Request For Expression of Interest. Such partnerships will be undertaken and recognised as a necessary intent and enabler for planned social rental and individual ownership schemes to enable choice and preference over the 30-year affordable housing development horizon as outlined above.

Its additional primary aim will be to address and restructure the segregated spatial patterns which historically manifest themselves in the way that the municipality currently functions. In addition, this will be linked to the already existing commitment in the GRDM's approved key strategic commitments as evidenced by the following:

- Corporate Sector Plans – an all-encompassing synergised approach to sustainable growth and development.
- The GRDM approved Integrated Human Settlements Strategic Plan
- The GRDM's Human Settlements Sector Plan (HSSP).
- Establishment of an enabling and supportive delivery context of the GRDM which encourages cohesive development partnership arrangements between local authorities and private sector developers.
- IDP (Integrated Development Plan) linked to the Municipal Spatial Development Frameworks of the GRDM which correlates and aligns to those of the 7 B Municipalities which constitute the district.
- Growth and Development Strategy

The above therefore, serves to demonstrate the GRDM's long term commitment towards creating enabling and sustainable environmental context for long-term affordable housing in well located areas. The key purpose remains the creation of socially integrated neighbourhoods providing housing for low-income households into

areas that they would normally be excluded from due to the prevalent property markets.

4. Why the call for Expression of Interest.

To understand and respond to the complexities and challenges of affordable housing, the Municipality conducted a process in 2021 to successfully register Social Housing Regulatory Association (SHRA) accredited Social Housing Partners. This was meant to allow them to present competitive proposals which were evaluated on set criteria as to whether they qualified to be the GRDMs social housing development and management partners. This process requires the Municipality to offer a set of incentives in the form of land/properties, utility and rates concessions, reduced parking ratios, planning and development costs, etc. to enhance realisation of such development opportunities.

In line with this strategic objective, the Municipality has to date registered one SHRA Accredited Social Housing partner as of April 2022 known as Own Haven Housing Association. Furthermore, to deliver at scale, the municipality now calls upon interested private developers and land/property owners:

- To respond through formal expression of interest to be part of the GRDM database of private sector developers.
- Willingness to offer their own land parcel and properties which have potential for affordable housing development as defined above.
- Willingness to be co- development partners in the GRDM's affordable housing delivery value chain.
- The willingness to align to the SHRA's (Social Housing Regulatory Authority) Regulatory Framework and obtain primarily successful accreditation from the SHRA in the event of opting for affordable rental housing schemes.

Private developers are encouraged to avail all forms of internal equity or investments they can consider for specific project development to enable project feasibility. In the event of formal reflection of interest to partner with the GRDM, the following forms of assistance and considerations are part of our Draft GRDM Incentives Policy Framework being investigated by the Municipality together with

its 7 B Municipalities. These will be implemented when final common approval and support has been formally made by the respective Municipalities for the following concessions:

- Concessions characterised by reduced rates and utility charges.
- Planning and Building Plans application fees/cost concessions to successful partnering entities/developers.
- Development Costs concessions which will be characterised by an agreed percentage charge or waivering of related costs.
- Extension of Indigent Grants to individual beneficiaries which include affordable / Inclusionary housing clients/beneficiaries.
- Targeting land and properties which can be availed either primarily for individual home ownership schemes (FLISP/First Home Finance and Upper GAP/Inclusionary Housing). However, for Social Housing opportunities which could be part of the mix the land will be on a long-term lease (minimum of 30 years for Social Rental Housing) and or reduced market value.
- Support for projects which have been evaluated and found to be feasible for future development. Such support will also extend to supporting the State funding requirements per specific projects co-developed between the Municipality and the interested private sector developers who have partnered to make affordable housing a feasible proposition.
- All targeted projects will primarily be in areas defined and gazetted by the State as Restructuring Zones (RZs) and Priority Human Settlements Housing Development Areas (PHSHDAs).
- There is a strong dependency on the GRDM and its 7B Municipalities to provide related incentive programmes and concessions to make this a viable proposition.

The GRDM and its B Municipalities intend to pursue this development process together, also with their government partners in the form of the Western Cape Department of Human Settlements (WC DoHS), now referred to as the Western Cape Department of Infrastructure (WC DOI), the Housing Development Agency (HDA), the Social Housing Regulatory Authority (SHRA) working together with the independent membership-based body for social housing institutions, the National

Association of Social Housing Organizations (NASHO). This also extends to the government agency known as the National Housing Finance Corporation (NHFC dealing with affordable financial packages e.g. First Home Finance (FHF).

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
