Ward Nr	Area	Ward Priority	Sector Department	Sector Response 2024
		• Water Project in Volmoed and Kliplokasie • Water Reservoir	Department of Water & Sanitation	The Regional Bulk Infrastructure Grant (RBIG) is a financial grant provided to municipalities to develop bulk water infrastructure. This infrastructure is essential for enhancing or connecting to existing water resources, ensuring that adequate water supply systems are in place. The grant allows municipalities to acquire or construct the necessary infrastructure in compliance with established frameworks. The municipality is aware of the above mentioned grant and the timelines for application have been communicated. In addition to the RBIG, the department also has the Water Services Infrastructure Grant (WSIG). The Water Services Infrastructure Grant is a financial support program aimed at the development and refurbishment of water and wastewater infrastructure, particularly in communities that do not have access to basic water supply services. The grants specifically benefit municipalities and are intended to enhance water supply reliability and reduce non-revenue water losses.. The WSIG focuses on projects that target backlogs in basic water and sanitation services, especially in marginalized or underserved communities. In order to be considered for this grant, the WSA should have a council approved WSDP for the

Ward Nr	Area	Ward Priority	Sector Department	Sector Response 2024
				current IDP cycle 2022-2027. This is a compulsory requirement from National Treasury as stipulated in the WSIG framework. The Conditional Grant Frameworks are published as annexures to the Division of Revenue Bill, and then gazetted once the act is signed into law. Potable Reservoirs and Bulk Pipeline Distribution and Pump Stations is covered under Municipal Infrastructure Grants (MIG) from Provincial Department of LG / COGTA: WC

		Bulk services for housing	Department of Water & Sanitation	The Regional Bulk Infrastructure Grant (RBIG) is a financial grant provided to municipalities to develop bulk water infrastructure. This infrastructure is essential for enhancing or connecting to existing water resources, ensuring that adequate water supply systems are in place. The grant allows municipalities to acquire or construct the necessary infrastructure in compliance with established frameworks. The municipality is aware of the above mentioned grant and the timelines for application have been communicated. In addition to the RBIG, the department also has the Water Services Infrastructure Grant (WSIG). The Water Services Infrastructure Grant is a financial support program aimed at the development and refurbishment of water and wastewater infrastructure, particularly in communities that do not have access to basic water supply services. The grants specifically benefit municipalities and are intended to enhance water supply reliability and reduce non-revenue water losses.. In order to be considered for this grant, the WSA should have a council approved WSDP for the current IDP cycle 2022-2027. Ward Nr	Area	Ward Priority	Sector Department	Sector Response 2024
		Paving of the internal roads of Nissenville and informal areas with storm water services as well as planting trees	Western Cape Department of Mobility	The Kannaland idp 2023-2027 does not state a need for paved internal roads in Nissenville and other informal areas. it does state though that the safety of routes in Kannaland LM presents difficulties for pedestrians, especially the elderly and disabled, who encounter obstacles when trying to reach shops and establishments. The situation is aggravated by the substandard condition of the paving and walkways, adding to the inconvenience. Busy periods, notably during SASSA week, worsen the issue. Moreover, local businesses suffer as they lose customers who are unable or unwilling to walk from the designated taxi facility. The safety of pedestrians along the R62 is a matter of concern as the number of pedestrians walking along the road has increased, and in some areas, there is a lack of proper paving or highways, further posing a great risk.
			Department of Public Works and Infrastructure	
			Department of Forestry, Fisheries and the Environment	
		Sport facilities must be upgraded and maintained. Built of a new pavilion, proper ablution facilities at sport field. Netball field to be upgraded.	Department of Cultural Affairs and Sport	All municipalities had to submit applications by 30 Sept 2024
